### Report on webinar held on Fundamental Analysis on 9<sup>th</sup> June 2020

The Finance and Investment Cell, Shivaji College organised a webinar on **Fundamental Analysis** by **CA Kashyap Rughani** (value investor, mentor) on 9<sup>th</sup> June, 2020. The webinar focussed on the basic Principles of fundamental Analysis. Mr. Kashyap covered a lot of topics starting from ratio and cash flow analysis to forensics in investing. Participants were much more interested when he compared companies like Amazon and Asian Paints with bunch of other FMCGs. The outcome of the webinar was as follows:

1. It gave a basic **understanding of** the term '**Fundamental Analysis**' to the **participants**.
2. The participants learned how to calculate **various ratios** and how to read **balance sheet** and analyse it in real life scenario.
3. The participants learned how to use fundamental analysis to **take long term investment decisions**.

The webinar witnessed a participation of over **67 students** from various colleges and universities. The attendees actively participated in the Questions and Answer round and the session was conducted smoothly without any glitches or problems.

The webinar also received an extremely positive response from the participants as observed through the feedback form released after the session. The general opinion seen in the responses was that the webinar was extremely knowledgeable and insightful and the students requested for more such webinars based on stock markets and financial analysis. **Such webinars help the students get practical knowledge about the actual behaviour of real investors and how investments are evaluated in real life, so they take the students closure to real life analysis rather than theoretical knowledge.**

Sir after our chasing at the discounted price if stock falls further, more than 10% should I buy more or I should exit the stock.

From Vedant somani to Everyone

When i enter a short position at resistance, should i cover up entire position on reaching the first target or i should cover a part of it and wait for it to fall more?

The Placement Cell of Shivaji College held its Internship and Placement Week, CRESCITA'21. This year, the Placement Cell conducted the fair for a week. CRESCITA'21 was held by the cell in virtual mode. Around 10 to 12 companies were a part of CRESCITA'21 every day. Spanning over a duration of 5 days, the event had over 65+ recruiting companies, 30+ sponsors, and 650+ candidates. CRESCITA'21 was kick-started with an inaugural ceremony on 31st March, led by our esteemed guests Mr. Prakhar Singhal and Ms. Neetu Singhal. The fair commenced officially on 1st April and continued till 5th April. The Cell welcomed deemed companies and students from various colleges in CRESCITA'21. In this highly competitive world, internships and work experience have started playing a major role in every student's career path. At the placement cell, we did our best to provide such growth opportunities to students and make our internship and placement fair a success.

Dr. Shiv Kumar Sahdev

The session started with an opening note from our convenor Ms. Suman Kharbanda and our Principal Mr Shiv Kumar Sahdev. Mr Prateek Ranjan has been bestowed with the title of India's most employable management graduate. He started with telling us about the qualities that people look for in interviews and what are the better interviewing tips that we should follow and then told us about the importance of problem solving and the background of consulting firms he started explaining us guesstimates through exercises and explain how important it is to ask questions because without asking questions it would only be pure blessing and not estimating we need to understand the rational and intent of the question to answer it or estimate the answer we should break the problem to granular level and understand various aspects so that the gas so that the guesstimate could actually represent the real answer the three learnings we got work approach insights and calculations the session ended with the question answer round very to Cup questions of the students related to various aspects at the end he motivated us to keep working on a problem solving skills
