Internal Assessment Re-Test

B.A.(H) Business Economics

Semester VI (2023-24)

Indian Financial System

Max Marks: 20

Date: 14/4/24

Max Time: 1 Hour

* Attempt all of the following questions :-

Q1 Mr A intends to take a housing loan of Rs 70 lakh to be repaid in 20 years.

He has the following options :-

(a) opt for fixed rate of interest @ 8% p.a.

(b) opt for floating rate @ 7% p.a. & this is likely to continue for 5 years after which it will become 10% p.a. At this point fixed rate will be 11%. & shifting will attract a penalty of 3% on the remaining loan amount.

Suggest whether he should opt for fixed rate or floating rate? (10).

Q2 From the following data, calculate the value based & price based indices:-

	outstanding no. of shares	Base Price	Mkt Price (Current)
A	70,000	25	40
B	40,000	30	60
C	1,50,000	20	30
