

Department of Biochemistry
Shivaji College
Summer Training Program on Research Methodology 3.0
(June 05-July 03, 2023)

Report

The summer training program on research methodology 3.0 was organized by the Department of Biochemistry, Shivaji College, University of Delhi under the aegis of DBT Sponsored Star College Scheme with the supervision of Dr. Jayita Thakur, Dr. Sunita Singh, Dr. Renu Baweja, Dr. Usha Yadav and, Dr. Abhijeet Mishra from June 05-July 03, 2023. Total 29 students participated in this program. The whole program was divided into 5 modules, the first module was taken by Dr. Renu Baweja in which she introduced the participants to research methodology and what a research proposal is all about this was followed with the assignments related to the module. The next module was conducted by Dr. Usha Yadav in which participants were given a clear view of the research and sample design, also they got to know about the literature review, how to develop a hypothesis, and what research plan they have to include in it. These 2 modules were covered in week 1. The next week was taken by Dr. Abhijeet Mishra, he gave a basic idea for the health camp, and how to collect data from that health camp and digitalization of data, this week health camp was organized on the premises of Shivaji College. This health camp includes various parameters such as Height, weight, BMI, fat percentage, visceral fat, basic metabolic rate, and body age. He also developed a scientific temperament among students with his thought-provoking questions.

The next module was followed by Dr. Jayita Thakur, in which participants learn about many areas of data presentation, data processing, and statistical analysis in the field of biochemistry during the summer training program. Dr. Jayita Thakur held engaging workshops on these issues, giving a piece of insightful information and practical understanding to students. A health camp is also organized in Miranda House for further data collection. During this 3rd

week of the program students also got a chance to interact with experts like Dr. Suman Kharbanda, she gave detailed information on how to use Microsoft Excel for data analysis with Dr. Chhavi Sharma, she emphasized the significance of data input and formatting in order to conduct correct analysis. A talk with Dr. Bhupender has conducted for an insight view of Hypothesis Testing, Statistical Tests, and Secondary data analysis.

The last module of this program was taken by Dr. Sunita Singh, who conducted the session on ethical principles in research. The significance of following these principles was emphasized, particularly in terms of biosafety and ethics compliance. These sessions are more interactive with talks from different experts like Prof. (Dr) Man Singh who talks about Intellectual property rights and Patents with his in-depth knowledge, Dr. Ajay opened the discussion by emphasizing the necessity of thorough and methodical research. He emphasized the need for well-defined research topics, clear objectives, and good preparation in guaranteeing a research project's success, and at last, Dr. Arjun gave us a quick overview of the statistical analysis and briefly reviewed the questions submitted in the form of a Google form. All the modules have their own different assignments / tasks which kept the students focused. At last, this summer training program was concluded with a valedictory session in which the feedback of students was taken and the certificates were distributed.

The resource person of the program

- **Dr. Jayita Thakur, Department of Biochemistry, Shivaji College, University of Delhi**
- **Dr. Renu Baweja, Department of Biochemistry, Shivaji College, University of Delhi**

- **Dr. Sunita Singh, Department of Biochemistry, Shivaji College, University of Delhi**
- **Dr. Usha Yadav, Department of Biochemistry, Shivaji College, University of Delhi**
- **Dr. Abhijeet Mishra, Department of Biochemistry, Shivaji College, University of Delhi**
- **Dr. Suman Kharbanda, Department of Commerce, Shivaji College, University of Delhi**
- **Dr. Chhavi Sharma, Department of Commerce, Shivaji College, University of Delhi**
- **Dr. Bhupender, Department of Microbiology, Swami Shraddhanand College, University of Delhi**
- **Prof. (Dr) Man Singh, School of Chemical Sciences, Central University of Gujarat**
- **Dr. Ajay, Department of Economics, Shivaji College, University of Delhi**
- **Dr. Arjun, Department of Economics, Shivaji College, University of Delhi**

(under the aegis of DBT sponsored Star College Scheme)

Inter College Summer Training Program
on
RESEARCH METHODOLOGY 3.0
June 05 – July 03, 2023

LEARNING OUTCOMES

Participants will:

- Learn to design a research based study and conduct review of literature
- Conduct survey based data collection and organize health camps
- Analyze data using biostatistics followed by the interpretation of data
- Report the findings of project with appropriate citations and check for plagiarism
- Interact with the experts and visit research labs

WHO CAN APPLY?
UG and PG students

REQUIREMENT:
Access to Laptop/Desktop

[Click here to register](#)
Or
Scan QR code

Last date for registration: June 01, 2023*

* No registration fees. Limited seats available.
Selected students will be informed through registered Email Id.
Certificates will be issued after successful completion of the STP.

DEPARTMENT OF BIOCHEMISTRY, SHIVAJI COLLEGE
University of Delhi

RESEARCH METHODOLOGY 3.0

June 05 - July 03, 2023

(Time: 10.00 AM -2.00 PM)

WEEK 1 (June 05 - 09, 2023)

Resource Person: Dr. Renu Baweja
Department of Biochemistry

Lectures delivered on Introduction to Research Methodology

- Objectives of research
- Motivation of research
- Types of research
- Significance of research
- Problems encountered by researchers

Research Proposals

- Selecting a problem
- Importance of defining the problem
- Developing a research plan
- Review of literature – reviews, patents, research papers, books.
- Familiarization with reputed journals in biological sciences, concept of impact factor and citation index.

Assignment 1

- ✓ Students will begin reviewing the literature on PTC and share via google drive.

Resource Person: Dr. Usha Yadav
Department of Biochemistry

Research Design

- Features of a Good Research Design
- Important Concepts Relating to Research Design
- Different types of Research Designs
- Basic Principles of Experimental Designs

Sampling Design

- Types of sample design
- Characteristics and steps of sampling
- Sample size and selection of controls

Assignment 2

✓ Students will apply the principles of research designing and sampling and further develop their research plan with respect to PTC. They will design survey forms which are to be used in week 2 for data collection.

WEEK 2 (June 12-16, 2023)

Resource Person: **Dr. Abhijeet Mishra**

Department of Biochemistry

Data Collection

- Collection of primary data
- Observation and interview method of data collection
- Collection of data through questionnaires
- Collection of secondary data

Collection of data based on PTC from Shivaji College, Ramjas College & Mrinda College.

Assignment 3

- ✓ Submission of survey forms with data collected by them.
- ✓ Digitalization and compilation of data
- ✓ A health camp is to be organized to collect data

WEEK 3 (June 19-24, 2023)

Resource Person: **Dr. Javita Thakur**

Department of Biochemistry

Data processing and statistical analysis

- Processing operations, tabulation, and graphical representation of data
- Measure of central tendency, dispersion, asymmetry (skewness)
- Normal distribution (p-value)
- Statistical tests and hypothesis (Standard error, chi-square test)
- Regression analysis

Resource Person: **Dr. Suman Kharbanda**

Department of Commerce

Shivaji College, University of Delhi

• Statistics in research

Assignment 4

- ✓ Students will process the data collected and learn to sort, filter and tabulate data
- ✓ They will graphically represent the data collected by them.
- ✓ Students will also begin the interpretation of data

WEEK 4 (June 26-30, 2023)

Resource Person: **Dr. Sunita Singh**

Department of Biochemistry

Lectures delivered on Interpretation of data and report writing

- Importance, technique and precautions for interpreting data
- Significance, types and steps in writing report.
- Layout of the research report
- Precautions for writing report

Bioethics and Plagiarism in Research

- Biosafety and Ethics - compliance and concerns
- Importance of avoiding plagiarism
- Checking for plagiarism using online tools
- Citation and acknowledgment

Resource Person: **Prof. Man Singh**

Former Dean, School of Chemical Sciences
Central University of Gujarat
Gandhinagar, Gujarat

Lecture delivered on "Introduction to Intellectual Property Rights"

Assignment 5

- ✓ Students will complete the interpretation of the data and discuss their finding
- ✓ They will prepare and submit a poster highlighting their various activities during the STP
- ✓ A report of work carried out during the STP will be written by the students and submitted

VALEDICTORY SESSION (July 03, 2023 11.00 AM onwards)

- Poster presentation by participant/s
- Feedback session
- Address by Chief Guest and distribution of certificates

Chief Guest: **Prof. Aloo Nag**, HOD, Department of Biochemistry, University of Delhi
South Campus, Benito Juarez Marg, New Delhi - 110021

(**DR. SUNITA SINGH**)

TIC

(**DR. JAYITA THAKUR**)

CONVENER, DBT
