During this season, in January the individual students were contacted as is a routine to check on about their well being. They were informed about the new semester papers, were encouraged to contact personally if they face any kind of problem and to be in touch otherwise also. Met the Groups and discussed the issues of their stay and rental accommodation. As my list covers those students only who are living in Delhi from outside. They were advised to follow the rule of such rental stay. as five of them are living in private house and accommodation sharing. the same building with the owner, I suggested them to follow the decorum of a student's social behaviour by not playing loud music, entertaining guests in late night.

The students discussed about the problem of the college library hours. They wanted to be it to be open till 9pm at least. After college classes are over, some of them go to their coaching centre till 9pm. If they can reach to college library, they would be able to spend one hour or more for reading books. I conveyed this request to the college principal. In their life enjoying guests. The student seems to be settling down gradually.

① Staying away from home & home-sickness contributes significantly to stress among the young, first year students. To address this issue, the mentors has taken a great care in organising interactive session among the students from different colleges & courses. This helps in forming cross-college and cross-regional bonding among students. On the other hand, teachers also remain in a constant touch with students & try to resolve their problems and counsel them.

All students were present, except Chirag, Chandani & Kirati.

I found all P.G. students having adjusted very well in the atmosphere of metro city like Delhi. As they come from smaller town and villages, it was nice to note that they are coping up very well. The crisis of water and heavy rate of water and electricity being charged by the house and P.G. accommodation owner was supported by Three students. I talk to such landlords and asked them to be lenient by not charging the amount for the duration of their absence from the accommodation (for more than 20 days).

 10-2-2020 - Everything OK with students who come. Lobsang is always busy with NCC.  
 at 11:55 am  
 2-2020 Everything was OK - talked to all in the meeting held about library, canteen, college premises, classes, commuting, environment, any issue at home.

March/April - Students were counselled. Most of them are home. Santhoi is in Delhi but she has money and her PG people look after her and do not send her to the market. Students face huge wifi issues while taking online classes. Santhoi went to home to Haripur on 27th May. Students have problems of wi-fi and many live in small homes, shared by other family members so have problems coming online. Even wi-fi is shared by other family members.

① In the meeting, it is also observed that the students are under constant stress related to their future career options. They are often confused between a desire to pursue higher education and necessity of securing a job. To address students' career related issues, I keep them informed about new emerging opportunities in the job market, the value and utility of their higher studies and areas in which undergraduates or post-graduate degree in history can be helpful.

Most of the students were present.

Between end of March and first week of June, a mentoring group held two online meetings. First meeting was conducted on 3rd April 2020. In this meeting, the attendance was poor due to online mode. Most of the student raised the problem of online teaching and lack of regular physical classes. Our next meeting was held on 16th May 2020. In this meeting, I observed through discussion with first year student that Covid-19 lockdown has led to fatigue & mental stress in their life. Many complaint about lack of study material.
