National Skill Development Corporation

Shivaji College offers placement linked skill development training in partnership with National Skill Development Corporation

- Part of joint '**Skill Development**' programme run by Delhi University and National Skill Development Corporation for under graduates.
- Training commenced for 100 students in 3 batches of Banking Finance and Insurance Services.
- 45 students enrolled in Healthcare, Media and Entertainment and Automotive Sectors.

New Delhi, Oct 1, 2015: Shivaji College is offering placement linked skill development training to the students as a part of MOU signed between Delhi University and National Skill Development Corporation. The college has enrolled around 150 students, highest number of enrolments in any college this year.

Shivaji College has provided the required infrastructure like classrooms, projectors and labs for practical sessions for successful implementation of the programme. Mrs Suman Kharbanda and Mrs Usha Sharda are coordinating the implementation of these programs along with their committee. Principal Dr Shashi Nijhawan is personally involved in the project right from technical presentations of the partners, to motivating the students and allocating the staff.

This training programme will get concluded by February 2016. A placement drive will be organised in association with the NSDC Training partners and Sector Skill Councils post completion of training and assessment of students.

Commenting on this initiative, **Mr. Dilip Chenoy, MD & CEO, National Skill Development Corporation** said, "NSDC is pleased and honored to partner with Delhi University. It is a good opportunity for the students to supplement their theoretical knowledge with practical hands-on training that will improve their employability in the increasingly competitive job market in the country and transform their lives."

"We plan to commence similar kind of trainings in other colleges of DU where admissions are currently going on. NSDC training partners such as Safe-educate, NIIT, Ants Consulting and Skill Tree are implementing the programme across the identified sectors. Towards the end of training, all the students will undergo assessment and certification by respective sector skill councils." He further added.

Commenting on this initiative, **Principal, Dr. Shashi Nijhawan** said, "We are happy to collaborate with NSDC for skill development of students of our college. These courses are expected to make our students employable by the time they complete their graduation. We have got a good response from the students and expect that more and more students will avail this opportunity."

"We are quite excited by the overwhelming response of students and hope to give additional value to their graduation" said Mrs. Suman Kharbanda, who is regularly in touch with NSDC for smooth running of the Courses.

The MoU between National Skill Development Corporation & Delhi University was signed in November last year. NSDC has already completed the pilot program in Dayal Singh College. Almost 70% students have been placed in jobs post their assessment and certification.

The objective of the MoU is to improve the employment potential of the students of the University of Delhi with systematic training, certificates of competency, and placement assistance. The various programmes offered are aligned to Qualification Packs (QP) and National Occupational Standards (NOS) developed by NSDC through Sector Skill Councils, so as to bridge the gap of industry requirement for suitable jobs.

About NSDC

National Skill Development Corporation (NSDC) is a unique Public Private Partnership (PPP), with 51 percent equity held by private sector and the balance 49 percent by the Union Government. Formed in 2010, NSDC is a professionally run not-for-profit company that includes 37 Sector Skill Councils and over 249 training partners with over 3222 training centers spread across over 516 districts in the country. NSDC is mandated to skill 150 million Indians by 2022.

Over the last 5 years, under NSDC, more than 55, 12,894 (cumulatively) have been skilled and more than 23,52,869 (cumulatively) placed.
