

REVERB

THE MUSIC SOCIETY OF SHIVAJI COLLEGE

Reverb is the Music Society of Shivaji College, which brings together individuals from all walks of life who have a burning passion for music. It is a vibrant society where students with a shared love for music come together to explore and express their passion. Our society serves as a creative hub, providing opportunities for learning, practice, and performance across a diverse range of musical styles and genres.

We actively participate in various cultural events and competitions, which are held throughout the year, showcasing our talent and dedication to the art of music. Our flagship intercollege event, **SWARANJALI**, is hosted annually in our Cultural Fest - **VIBRATIONS**, which brings together musicians from all corners of the University of Delhi as well as other colleges, where we host a number of competitions such as Instrumental Solo competitions and Solo Singing Competitions among many more.

Apart from performances, we also focus on skill development and musical education. We organize workshops, jam sessions, and collaborative projects that help our members improve their techniques, expand their musical horizons, and build lasting friendships within the society.

We are a **family** of passionate musicians who support and encourage each other's artistic growth. Whether you're a seasoned performer or just starting your musical journey, Reverb welcomes you to explore, create, and share the joy of music with us.
